

Key Highlight

- Contributed to large-scale OpenSource project
- Debugging large and complex codebase
- Google search skills and Know the effective use of ChatGPT

Experience

OpenSource Contributor - Appsmith

ReactJS, Nodejs

Contributed to a large-scale project. **Gained practical experience in debugging complex ReactJS codebase.**

Profile

A highly motivated and detail-oriented person with a strong passion for front-end and full-stack development. **Proficient in JavaScript, ReactJS, Typescript, NodeJS, MongoDB, and Go.**

Skilled in **reading and debugging large, complex code bases written by others** and eager to learn and stay up-to-date with the latest technologies. Strong communication and **problem-solving skills**, capable of working independently or as part of a team. An **open-source enthusiast** with a deep understanding of Git, GitHub, and Linux. A well-organized individual with a commitment to delivering **top-quality** work.

Projects

URL Shortener with Targeted Access and Confirmation System

ReactJS, Nodejs and MongoDB

Designed, developed, and implemented a valuable tool for individuals, friends, families, and communities who need a more secure and private way to share links with **unique features** like email-based sign-in, expiration dates, and confirmation emails.

Certifications

M001: MongoDB Basics

MongoDB University

Through this course, I **gained practical experience and knowledge** of data modeling, CRUD operations, data aggregation, and indexing techniques using MongoDB.

Responsive Web Design

Freecodecamp.org

I gained hands-on experience in building different types of web pages using HTML, CSS, and JavaScript.

Achievements

Innovation in Science Pursuit for Inspired Research (INSPIRE) Award Scholarship

2017

Got selected for INSPIRE Scholarship **among the Top 1% of students in the state.**
